Bill Pelton, Stockmens Ins. Agency 406-671-5100

CALVING EASE RECOMMENDATION

Throughout the catalog we have selected bulls we feel are definite calving ease and should be considered to use on heifers. These notes can be found in the footnote section of the lot boxes. This suggestion is based on a number of factors including pedigree, birth weight and our knowledge of the sire and dam. All buyers should take into account their own program when considering these recommendations. Please talk to us prior to the sale if you have any questions.

Greetings **Cattlemen!**

On behalf of the entire Rafter T Angus family, we personally invite all of our past, present and future customers to our annual production sale. Getting to know our customers and being familiar with their individual programs is a highlight in this business. We are honored that so many of you allow us to be part of your business.

This crazy drought just won't give us a break. Raising efficient cattle is a must. Forcing all of our cattle to "do more with less". Our cows are still weaning a big calf at the end of August. These calves aren't getting creep fed and yet our weaning averages get a little better every year. We credit this to better genetics. Profit margins in our industry are much tighter than they have been in the past. With the cattle market at its current low, we see this as an opportunity to expand and freshen the genetics in your herd. We are offering outcross bulls, with a strong genetic foundation.

We work very closely with our nutritionist and Drs. Jay and Brandi Hudson to develop sound footed and highly fertile bulls. The bulls will be given a complete breeding soundness exam before they are delivered. If you live in Wyoming or surrounding states we will deliver you bull(s) for free, beginning mid March 2022.

Our goal is to offer outstanding customer service. Not only just around sale time but also when the bulls are at home working in your pastures. The bulls are covered by our personal guarantee. We stand behind every bull that leaves our ranch for one breeding season. If for some reason you are not satisfied with your purchase during the first breeding season, we want to be the first to know.

Thank you to those of you who have put your trust in our genetics. We greatly appreciate your business. If you're in the area before or after the sale please stop by to look at the bulls. The bulls have all been videoed and those videos can be seen on our website. If you have any questions about our program or are just needing more information please call us or go to our website, www.raftertangus.com.

We can't wait to visit with you on sale day. Please join us for lunch starting at 11:30 AM

The Kretschman Family,
Kale, Kim, Galen and Zane

LOT 1

Sons of

SITZ RESILIENT 10208

The record-setting \$165,000 bull of the Fall 2019 Sitz Angus Ranch sale. This breed leader for \$Maternal calf value index, \$Weaned calf value index, Claw Set EPD, Foot Angle EPD and PAP score EPD has been described by all who have seen him as wide based, deep bodied and free moving. As his dam's first calf, Resilient had a weaning ratio of 121 and an adjusted yearling weight of 1,530 pounds for a yearling ratio of 117. His PAP score of 37 as an 18-month-old bull, before the Sitz sale, contributes to an elite PAP score EPD and makes him a great choice for producing cattle that will work at altitude.

FROM OUR VETERINARIAN TEAM «

"In our 13 years of serving Rafter T Angus we've always been impressed with Kale and Kim's pride in developing the best bulls possible. Not only do they select genetics with scrutiny and manage their bulls for their utmost breeding potential, but they possess integrity by making sure each bull passes a full breeding soundness exam before delivery instead of following the trend of just giving you a verbal guarantee. Rafter T Angus stands behind their bulls and always welcomes feedback. This is why its been a pleasure working with them."
